Summary

Experience:

Total Experience: 3 years, specializing in IT and Cybersecurity.
1 year of hands-on experience in Ethical Hacking and mobile application development.

Skills:
Versatile IT professional proficient in Cybersecurity , Database Management, and Internet of Things.
Strong analytical and problem-solving skills developed through practical application.
Passionate about leveraging IT skills to drive business success and positively impact communities. Open to opportunities that align with my expertise and values.

Experience

Intern
Judiciary
Mar 2024 - Present (1 month)
As an intern at the Judiciary Kenya, I have the invaluable opportunity to immerse myself in the intricacies of the legal system and contribute to various aspects of judicial proceedings. During my internship, I assist with legal research, drafting legal documents, and compiling case files, gaining practical insights into the workings of the judiciary.

Application Developer
Lets Fly
Jan 2023 - Dec 2023 (1 year)
Developed and launched "Let's Fly," a quiz app.
Utilized Java language in android studio to build the app from conception to deployment.

Education

KCA University
Bachelor's Degree, Information Technology
2021 - 2024

Nakuru high school
High School Diploma, General Studies
2016 - 2019
